

ANGER FOOT

ASS KICKER'S HANDBOOK

HELLO

ANGER FOOT is a lightning fast first-person booter where the only things harder than your ass-kicking feet are the ass-kicking beats. Here's some useful intel to get you started...

WELCOME TO SHIT CITY

SHIT CITY. Never has there been a worse pit of crime and degeneracy. On these mean streets, **EVERYONE** is in a **GANG**, and there's only one rule: **CRIME** is the **LAW**. A harsh and cruel place, sure, but also the perfect stomping ground for **ANGER FOOT**.

The city is run by the four biggest **GANGS**...

THE VIOLENCE GANG are a ruthless crew of muggers and thieves. **THE POLLUTION GANG** are the filthiest thugs in town. **THE BUSINESS GANG** are slick hustlers and corporate fraudsters. **THE DEBAUCHERY GANG** are the unholyest of hedonists. And all these goons answer to the **CRIME MINISTER**, who sits at the very tip top of the slippery criminal ladder.

CHALLENGES

Listen up, fool. Every level in **ANGER FOOT** has a set of **OPTIONAL CHALLENGES**. But just 'cause they're optional doesn't mean you should sleep on 'em. If you take the time to complete these **CHALLENGES**, not only will it be an impressive display of skill, but you'll also unlock the greatest prize of all: **SNEAKERS**.

Every pair of **SNEAKERS** has unique **POWERS** that can dramatically change how the game plays.

The more **SNEAKERS** you unlock, the more varied and interesting **ANGER FOOT** becomes. Experiment with footwear to dive deep into the combat.

SNEAKER VAULT

If you're gonna survive on the streets of **SHIT CITY**, you're gonna need some killer **SNEAKERS**. Here are the shoes you can unlock and the super special ass-kicking **POWERS** wearing them will let you unleash on the gangs.

SCAVENGERS

"Live. Loot. Loathe"

Strap these bullet-adorned canvas sneakers on and killing enemies will replenish your ammo supply.

BRAIN EXPANDERS

"Big brain booties"

These chunky boots will make enemies' heads grow to immense proportions, making headshots a breeze.

UPPERCUTTERS

"The upper hand"

Imagine an uppercut, like the one boxers do, but with your feet. You've just imagined this shoe's power: a foot uppercut.

CHARGERS

"Kick through it all"

Hold kick to build up a fast, long distance charge kick that blows through enemies and doors like a leather whirlwind.

HOLY SANDALS

"Miracles do happen"

These humble sandals may not look like much, but they'll resurrect you once after death and let you walk on liquids.

REVENGERS

"Make sure they're dead"

When you kick a goon with these equipped, their body will explode after a short time. Talk about kicking 'em while they're down.

SOUL SUCKERS

"Kill to live"

Gives you a large amount of health that rapidly degenerates, but that can be fully refilled by killing an enemy.

DETONATORS

"A grand entrance"

Kicking doors in is fun enough, but kick one with the Detonators equipped and the flying door will explode on impact.

SLIDE KICKERS

"Put your foot down"

With these garish green shoes on your feet you can pull off a super powerful, and super cool-looking, slide kick.

STILETTOS

"Leave onlookers stunned"

Regular bullets will only stun enemies while wearing these stunners, but thrown weapons will kill them instantly.

GAMBLERS

"Switch up your style"

Whenever you kill a goon with these on they'll drop a random weapon that you can use against their buddies.

FLOATIES

"Feel like you're floating away"

These practical rubber clogs aren't just for line cooks. Slip 'em on and the gravity in a level will be reduced to zero.

FIREFIGHTERS

"Guaranteed flame resistance"

With these on, Anger Foot is immune to fire and explosion damage, and gets extra propulsion from rocket jumps.

FLASH KICKERS

"Kick up a storm"

Jump and kick for a series of blistering rapid kicks and a short burst of flight. Plus, lightning bolts look cool.

SIZE THREES

"Small but mighty"

Tiny, tiny baby shoes. So small. So petite. Wear these and Anger Foot's height will be dramatically reduced.

PUMPED KICKS

"Shotguns are just better"

Every weapon's bullet behaves like a shotgun shell, giving even a standard pistol multiple blasts per shot.

RAGE RUNNERS

"Stay mad, kick harder"

Gives Anger Foot a short burst of rage when doors are kicked, providing faster movement and attack speed.

CLOWN SHOES

"The shoes of a clown"

Circus sounds and confetti explode around you, while enemies deflate and fly around when killed like pathetic balloons.

TIMESTOPPERS

"There's no rush"

Wield these time-tinkering sneakers and when you kick down a door, time will slow down like in that one movie.

FLY WHISPERERS

"Pretty fly"

Kicked trash-sniffing flies become allied with Anger Foot, and buzz around enemies causing them distress. Gangs hate bugs.

PLAKKIES

"We're all drunk and incompetent"

Slide while moving, and suffer greatly reduced accuracy. BUT you can drink beers to sober up and shoot straighter.

THRUSTERS

"Flight's not only for the birds"

Futuristic jet-powered sneakers, like we'll all be wearing in the year 3000. Hold the jump button to fly around for a bit.

BOOMERS

"They don't make 'em like they used to"

Retro screen effects and a health bar (with no HP regen) takes you back to the golden era of shooters.

There's no 'best' shoe in **ANGER FOOT**. Their individual powers all change the gameplay in wild, unique ways. Like a real sneaker, find the ones that suit your own personal style.

ACCESSIBILITY

Just because **ANGER FOOT** is the ass-kickingest dude in Shit City doesn't mean he doesn't need a helping hand from time to time. Peep these accessibility options.

ASSIST MODE

Easier enemies? Easier bosses? Or just easier everything? Select your preferred option from the Assist Mode dropdown in Gameplay Options.

NEVER DIE

You can also select the Never Die option from the same dropdown menu. Activate this and Anger Foot will never succumb to his injuries, no matter how much of a beating he takes.

WEAPON HIGHLIGHT

When a weapon falls on the floor after being dropped by an enemy, this option will highlight it: either with a glow or glows AND sparkles. This makes them much easier to spot.

VISUAL EFFECTS

In Gameplay Options you can reduce camera shake and recoil with a pair of sliders, disable flashing lights, turn off blood, and more to ensure you're having the best experience for you.

AUTO AIM

If you need a helping foot when it comes to the game's gun-based combat, you can enable auto aim to give you the edge. The strength of this can also be tweaked to suit your style.
