

The background of the cover features a character in tactical armor on the left, holding a large, multi-barreled machine gun. The gun is firing, with a large, bright orange and yellow flame and smoke effect coming from the barrels. In the background, there are silhouettes of other characters and a dark, industrial setting. The title 'ZOMBIE SHOOTER' is prominently displayed in the upper center, with 'ZOMBIE' in a metallic, blocky font and 'SHOOTER' in a red, blood-splattered font. A large, white, handwritten-style word 'MANUAL' is written diagonally across the right side of the cover.

# 1. Game overview

Where is the line between life and death?  
How far can human science go trying to understand this?

Take part in the great battle to rescue humanity and find out what's happening!

The human race is in danger again.  
This time scientists could not cope the imminent threat and became monsters themselves.  
Crowds of zombie people filled the secret research base.  
The dreadful contagion is about to spread earthwide.

Use the last chance to save the humanity from total annihilation!

- fight your way through contaminated hordes
- use 10 types of weapons
- improve the character's skills
- upgrade available arms with the money earned

In the end:

Find the answer to the main question - what caused the catastrophe?

Who knows, maybe on the final stage you'll face something terrible?..

Attention! Try your monster fighting skills in two new game modes -

Survive and Gun Stand. Only these modes will really show how good you've become.

## 2. Installation and uninstallation of the game

### Installation of Zombie Shooter:

Click installation file twice to start installation process. In the appeared menu choose "Next" and follow the instructions of the installation program.

### Uninstallation of Zombie Shooter:

Click the sign "Uninstall the game" in the section of the game in the menu of the button "Start" to uninstall the game. Then follow the instructions of the uninstall program.

## 3. System Requirements
