

# BEAR SIMULATOR INSTRUCTIONS

## Controls:

*W: Forward*

*S: Back*

*A: Left*

*D: Right*

*Mouse Move: Look*

*Left Mouse: Attack*

*Right Mouse: Power Swipe (Once Unlocked)*

*E: Activate/Collect*

*R: Other*

*Tab: Menu*

*Space: Jump*

*Shift: Run*

*Ctrl: Crawl*

[Controls can be remapped in the menu when first opening the game.]

## Other:

### Climbing:

*You can climb vines in certain places. Walk into them and hold Jump or look up and press Forward.*

### Intelligence:

*You must raise your intelligence to eat Foods in later regions.*

### Strength:

*There are certain objects (like doors) that can be destroyed if you have high enough strength.*

### Food:

*Food glows, if you can't find something try searching at night.*

## Game Settings:

*If the game doesn't run well on your system try lowering the settings on the start up menu.*

*If you have a powerful system turn on special effects like water reflections, refraction, motion blur and depth of field.*
