

GROOVE COASTER for STEAM,
in Arcade Mode you will be using
a Keyboard or Controller in place
of the Booster from
the Arcade Machine.

KEYBOARD

GENERAL CONTROLLER

STEAM CONTROLLER

Left Booster

Arcade Mode Controls - KEYBOARD(Default) -

Right Booster

W(up), A(left), S(down), D(right)

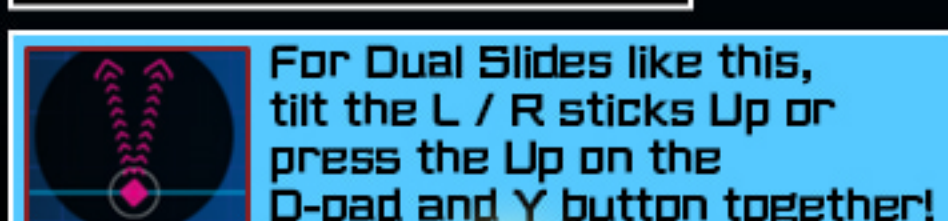

For Dual Slides
like this push
W & D keys
together!

- These keys will function both as directional SLIDE input, and PUSH input when timed correctly.
- Able to also use Numpad keys 8, 4, 5, 6
- Able to change key assigns from SETTING.

Left Booster

Arcade Mode Controls - GENERAL CONTROLLER -

Right Booster

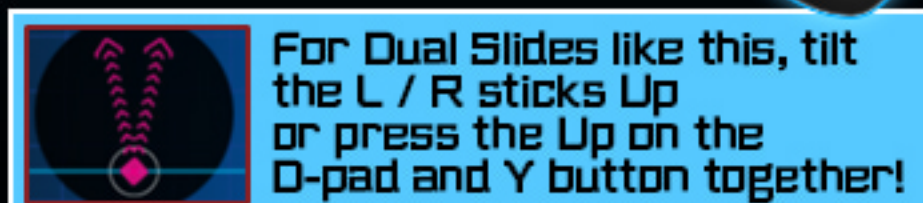

For Dual Slides like this,
tilt the L / R sticks Up or
press the Up on the
D-pad and Y button together!

- Left hand directional keys will function as PUSH input
- Right hand 4 buttons, each will function as directional SLIDE input

Left Booster

Arcade Mode Controls - STEAM CONTROLLER -

Right Booster

For Dual Slides like this,
tilt the L / R sticks Up or
press the Up on the
D-pad and Y button together!

- PUSH input will respond to lightly touching the pad, don't need to push hard

In Arcade mode, targets requiring input from both hands will appear

Left Booster

Right Booster

In Casual Mode, Dual Input Targets will be changed
to Single Input Targets.

*Inputs can be performed with either the Left or Right side buttons.
